Sweepers

Manual sweeper EMS-55

EMS-55 Walk Behind Manual Sweeper for small to medium areas. Lightweight design with self-contained 58L dirt hopper. Effortlessly sweeps fine dust and large debris with double side brushes. Ergonomic handle for smooth manual operation. Area performance up to 4200 m²/hr.

Manual sweeper EMS-55B

EMS-55B Ride-On Sweeper designed for efficient large-area cleaning. Battery-operated system with dual side brushes for maximum coverage. Equipped with 45L dustbin and 8L water tank for effective dust control. Powerful motor performance with cleaning efficiency up to 5250 m²/hr. Smooth walking speed and ergonomic design for comfortable operation.

Ride On Sweeper ES1300

ES1300 Ride-On Sweeper built for powerful large-area cleaning performance. With a 1300 mm sweeping width and 800 mm main brush, it delivers coverage up to 10,000 m²/hr. Equipped with dual side brushes, 100L garbage tank, and 30L water tank for efficient dust control. Strong battery-powered system ensures 3–4 hours of continuous operation with smooth driving speed up to 9 km/hr. Ideal for industrial and commercial spaces.

Ride On Sweeper ES1500

ES1500 Ride-On Sweeper engineered for high-performance large-area cleaning. Featuring a 1380 mm sweeping width and coverage up to 10,800 m²/hr, it ensures fast and efficient operation. Equipped with dual 500 mm side brushes, 180L garbage tank, and 90 L water tank for superior dust control. Powerful battery-operated system delivers 3–4 hours of continuous working time with smooth driving speed up to 9 km/hr. Ideal for heavy-duty industrial and commercial applications.

Ride On Sweeper ES1600

ES1600 Ride-On Sweeper delivers powerful industrial cleaning with a 1580 mm sweeping width and coverage up to 14,500 m²/hr. Equipped with 200L garbage tank and 150L water tank for superior dust control. Battery-operated system provides 4–6 hours runtime, ideal for large warehouses, factories, and commercial facilities.

Integrated Sweeper ES2150-F

ES2150-F Ride-On Sweeper delivers high-performance industrial cleaning with a wide 2150 mm cleaning path and coverage up to 10,500 m²/hr. Equipped with a 300L dustbin and 240L water tank for advanced dust suppression. Powered by a 48V battery system providing 3.5–4.5 hours runtime, ideal for large warehouses, factories, parking areas, and industrial facilities.

Integrated Sweeper ES2200-F

ES2200-F Ride-On Sweeper delivers heavy-duty industrial cleaning with a wide 2200 mm sweeping width and coverage up to 11,000 m²/hr. Equipped with a large 400L dustbin and 250L water tank for superior dust control. Powered by a 48V battery system offering 4–5 hours runtime, making it ideal for warehouses, factories, logistics hubs, parking areas, and large commercial facilities.

Integrated Municipal Sweeper (EV) EMS1600

EMS1600 Municipal Sweeper (EV) delivers powerful electric road-cleaning performance with a sweeping width up to 2300 mm and a large 2000L dustbin capacity for high-volume waste collection. Equipped with a 900L water tank for effective dust suppression and powered by a 72V 7500W AC motor with hydraulic system, ensuring strong and efficient operation. Designed for city roads, municipalities, industrial zones, and large public areas, it combines high productivity with eco-friendly electric performance.

Scrubbers Driers

Walk Behind Scrubber drier E-50

E-50 Walk-Behind Scrubber Dryer delivers efficient and compact floor cleaning with an 830 mm cleaning width and productivity up to 2,200 m²/hr. Equipped with a 55L clean water tank and 60L recovery tank for continuous operation. Powered by a 24V system with high-performance brush and vacuum motors, it ensures deep cleaning and fast drying. Ideal for hospitals, malls, offices, schools, and commercial spaces requiring professional floor maintenance.

Walk Behind Scrubber drier Eb-50

EB-50 Walk-Behind Scrubber Dryer (Battery Operated) offers efficient cordless cleaning with 830 mm coverage and productivity up to 2,200 m²/hr. Featuring 55L clean and 60L recovery tanks, powered by a 24V battery system, it ensures deep scrubbing, fast drying, and smooth maneuverability for commercial and institutional floor maintenance.

Walk Behind Scrubber drier E-60

E-60 Walk-Behind Scrubber Dryer delivers powerful floor cleaning with a 900 mm cleaning width and productivity up to 2,400 m²/hr. Equipped with 60L clean and recovery tanks, and a 24V motor system, it ensures deep scrubbing, efficient water flow, and fast drying for commercial and industrial spaces.

Walk Behind Scrubber drier EB-60

EB-60 Walk-Behind Scrubber Dryer (Battery Operated) delivers powerful cordless cleaning with a 900 mm cleaning width and productivity up to 2,400 m²/hr. Equipped with 60L clean and recovery tanks, and a 24V high-performance motor system, it ensures deep scrubbing, efficient water usage, and fast drying for commercial and industrial floor care.

Ride On Scrubber Drier E-RIDER 90

E-RIDER 90 Ride-On Scrubber Dryer delivers efficient and comfortable floor cleaning with 830 mm squeegee width and productivity up to 3,640 m²/hr. Equipped with a 90L clean water tank and 100L recovery tank, it ensures extended operation and fast drying. Ideal for malls, hospitals, warehouses, and large commercial facilities.

Ride On Scrubber Drier E-RIDER 110

E-RIDER 110 Ride-On Scrubber Dryer delivers high-performance cleaning with a 900 mm cleaning width and productivity up to 5,320 m²/hr. Equipped with 130L clean and recovery tanks, 3–4 hours runtime, and a powerful 1750W system, it ensures efficient scrubbing and fast drying for large commercial and industrial spaces.

Ride On Scrubber Drier E-RIDER 160

E-RIDER 160 Ride-On Scrubber Dryer delivers heavy-duty cleaning performance with dual 510 mm brushes and productivity up to 6,800 m²/hr. Featuring 160L clean and recovery tanks, 4–5 hours runtime, and speeds up to 9 km/h, it ensures powerful scrubbing and fast drying for large industrial and commercial facilities.

Ride On Scrubber Drier E-RIDER 260

E-RIDER 260 Ride-On Scrubber Dryer delivers powerful industrial cleaning with a 1000 mm cleaning width and 1350 mm squeegee coverage, achieving productivity up to 3,600 m²/hr. Equipped with 260L clean and 270L recovery tanks, 4–5 hours runtime, and a 3360W system, it ensures efficient scrubbing and fast drying for large facilities.

Scrubbers Driers

Premium Ride-On Scrubber Dryer E-Rider 120P

E-RIDER 120P Premium Ride-On Scrubber Dryer delivers advanced cleaning performance with 800 mm scrubbing width and 1000 mm squeegee coverage, achieving up to 5,200 m²/hr productivity. Equipped with 110L solution and 120L recovery tanks, dual high-power brush motors, and 4–6 hours runtime, it ensures powerful, efficient cleaning for premium commercial and industrial environments.

Robotic Scrubber Dryer deliver E-ROBO 75

E-ROBO 75 Robotic Scrubber Dryer deliver intelligent, autonomous floor cleaning with a 700 mm cleaning width and compact in-place turning capability. Equipped with 65L clean and 75L recovery tanks, fast 1.5-hour charging, and low noise operation (<70 dB), it ensures efficient, quiet performance for modern commercial and industrial spaces.

All in One Roller Brush Scrubber Dryer

EW-440 All-in-One Roller Brush Scrubber Dryer delivers efficient and versatile floor cleaning with a 440 mm working width and 720 RPM roller brush. Powered by a 650W motor, it features 10L solution and 6L recovery tanks, ensuring effective scrubbing and quick drying for commercial and institutional spaces.

Scrubby EHS7

Scrubby EHS7 is a compact and lightweight battery-operated hand scrubber designed for quick and efficient cleaning. With 350 RPM brush speed, 18 cm working width, and up to 1.5 hours runtime, it ensures powerful performance. Fast 55-minute charging and ergonomic telescopic handle provide convenient operation.

Single Disc

Single Disc ESD-17

ESD-17 Single Disc Machine delivers powerful and versatile floor care with a 17-inch brush and 1100W (1.5 HP) motor. Operating at 155 RPM, it is ideal for floor scrubbing, polishing, and carpet cleaning. With low 60 dB noise and a 12-meter cable, it ensures efficient and convenient operation.

Single Disc ESD-20

ESD-20 Single Disc Machine delivers heavy-duty floor cleaning with a powerful 1500W (2 HP) motor and 165 RPM brush speed. Designed for floor scrubbing, polishing, and carpet care, it ensures strong performance with low 60 dB noise. Equipped with a 15-meter cable for extended and convenient operation.

Single Disc ESD-25

ESD-25 Single Disc Machine delivers high-performance floor care with a powerful 1870W (2.5 HP) motor and 20-inch brush. Operating at 175 RPM, it is ideal for heavy-duty scrubbing, polishing, and carpet cleaning. With low 60 dB noise and a 15-meter cable, it ensures efficient and reliable operation.

Automatic Mini Floor Scrubber Dryer Emop

EMOP Automatic Mini Floor Scrubber Dryer delivers compact and efficient cleaning with dual 250 mm brushes and productivity up to 1,750 sq.m per hour. Powered by a 650W motor and 24V system, it features 5.1L solution and 4L recovery tanks, ensuring effective scrubbing and quick drying for small commercial spaces.

Vacuum Cleaners

Vacuum Cleaners EV-15

EV-15 Wet & Dry Vacuum Cleaner delivers powerful cleaning performance with a 1000W motor and strong 210 mbar suction. Featuring a 15L tank capacity and 48 L/s airflow, it efficiently handles both wet and dry waste. Compact, lightweight, and easy to operate, ideal for homes, offices, and commercial spaces.

Vacuum Cleaners EV-30

EV-30 Wet & Dry Vacuum Cleaner delivers powerful and efficient cleaning with a 1000W motor and strong 210 mbar suction. Featuring a large 30L tank capacity and 53 L/s airflow, it easily handles wet and dry waste. Ideal for commercial spaces, workshops, offices, and heavy-duty cleaning tasks.

Vacuum Cleaners EV-60

EV-60 Wet & Dry Vacuum Cleaner delivers heavy-duty cleaning power with a 2000W motor and strong 230 mbar suction. Featuring a large 60L tank capacity and 106 L/s airflow, it efficiently handles demanding wet and dry applications. Ideal for industries, warehouses, workshops, and large commercial spaces.

Vacuum Cleaners EV-80

EV-80 Wet & Dry Vacuum Cleaner delivers superior heavy-duty performance with a powerful 3000W motor and strong 240 mbar suction. Featuring an 80L large-capacity tank and 120 L/s airflow, it efficiently handles demanding wet and dry cleaning tasks in industrial, commercial, and workshop environments.

Industrial Vacuum Cleaner EVAC-50

EVAC-50 Industrial Vacuum Cleaner delivers powerful heavy-duty performance with a 2200W motor and strong 22 KPa suction. Featuring a durable stainless-steel body, 100L capacity, and H11 high-efficiency filtration with 4.0 m² filter area, it ensures reliable dust collection for factories, warehouses, and industrial environments.

Industrial Vacuum Cleaner EVAC-100

EVAC-100 Industrial Vacuum Cleaner is built for heavy-duty performance, featuring a powerful 1800W motor and 16 KPa suction strength. Constructed with a durable stainless-steel body and a large 100L capacity tank, it includes an H11 filtration system for efficient dust control in industrial and commercial environments.

Backpack Vacuum Cleaner E-BP5

E-BP5 Backpack Vacuum Cleaner offers powerful 1600W performance with strong 25 KPa suction and 40 L/s airflow for efficient dust removal. Designed with a lightweight 10 kg ergonomic backpack structure and low noise operation under 65 dB(A), it ensures comfortable and effective cleaning for commercial environments.

Backpack Vacuum Cleaner EB-BP5

EB-BP5 Battery Backpack Vacuum Cleaner delivers cordless, high-performance cleaning with powerful 25 KPa suction and 40 L/s airflow. Designed with a lightweight 12 kg ergonomic backpack structure and 5L tank capacity, it ensures low-noise operation under 65 dB(A). Ideal for hotels, offices, cinemas, and commercial facilities requiring maximum mobility.

Jet Pressure

High Jet Pressure E-JET 150

E-JET 150 High Pressure Jet Cleaner delivers powerful cleaning performance with a 2500W induction motor and pressure up to 150 Bar. Featuring 9 L/min flow rate and durable construction, it ensures efficient removal of tough dirt, grease, and grime for vehicles, workshops, and industrial applications.

High Jet Pressure E-JET 160

E-JET 160 High Pressure Jet Cleaner delivers powerful cleaning with a 2800W induction motor and pressure up to 180 Bar. Featuring a strong 13 LPM flow rate and durable design, it ensures efficient removal of tough dirt, grease, and grime for vehicles, workshops, industries, and heavy-duty cleaning applications.

High Jet Pressure E-JET 180

E-JET 180 High Pressure Jet Cleaner delivers superior cleaning performance with a powerful 3000W induction motor and pressure up to 200 Bar. Featuring a high 15 LPM flow rate and robust construction, it ensures fast and effective removal of stubborn dirt, grease, and grime for industrial and commercial applications.

Hot & Cold Pressure Washer E-HC150

E-HC150 Hot & Cold Pressure Washer delivers industrial-grade cleaning power with 150 Bar pressure and 15 L/min flow rate. Powered by a 5.5 kW motor with diesel heating, it produces hot water up to 95°C and steam up to 140°C, ensuring effective removal of grease, oil, and stubborn contaminants in heavy-duty environments.

Other's

Escalator & Travelator Cleaner ES-510

ES-510 Escalator & Travelator Cleaner delivers efficient deep cleaning with a 510 mm brush width and powerful 510W motor. Designed with 30 kg brush pressure and 15-meter cable length, it ensures effective dirt removal from escalators and moving walkways, making it ideal for malls, airports, and commercial facilities.

Carpet Cleaner E-C30

E-C30 Carpet Cleaner is a powerful 3-in-1 carpet extraction machine designed for deep cleaning performance. Featuring a 1200W suction motor, 38L fresh water tank, and 30L recovery tank, it ensures efficient dirt removal with low noise operation (≤ 70 dBA). Ideal for hotels, offices, and commercial spaces.

Steam Cleaner ET-35E

ET-35E Steam Cleaner delivers powerful sanitizing performance with 4 Bar steam pressure and 100°C output temperature. Powered by a 1500W system, it provides up to 45 minutes of continuous operation. Compact and lightweight, it ensures effective chemical-free cleaning for homes, kitchens, bathrooms, and commercial spaces.

Hand Floor Scrubber EHS-6

EHS-6 Hand Floor Scrubber delivers compact and powerful cleaning performance with a 7-inch brush and 1200W motor. Operating at 3000 RPM, this lightweight 4 kg machine ensures efficient scrubbing and polishing. Ideal for homes, small shops, offices, and tight spaces requiring quick and convenient floor maintenance.

Single Dsic

Pressure Washer Surface Cleaner E-LP240

E-LP240 Pressure Washer Surface Cleaner features a 30-inch stainless steel design built for high-performance cleaning. Supporting up to 275 Bar (4000 PSI) pressure and 15 L/min flow rate, it ensures fast and uniform surface cleaning. Ideal for driveways, parking lots, warehouses, and large commercial areas.

Washroom Multifunctional Cleaning Machine EWC-30

EWC-30 Washroom Multifunctional Cleaning Machine delivers powerful all-in-one cleaning with 4700W total power, combining steam, water absorption, and strong ≥ 22 KPa suction. Featuring separate clean and sewage tanks, low noise operation, and a 15-meter cable, it ensures deep sanitization for washrooms and commercial facilities.

Ride On Mopping Scooter ES-900

ES-900 Ride-On Mopping Scooter is designed for fast and efficient large-area floor maintenance with a wide 900 mm cleaning path and up to 50 km travel capacity. Powered by a 24/36V DC system and 500W motor, it provides smooth handling, strong climbing performance, and reliable operation for industrial and commercial environments.

Ride On Mopping Scooter ES-900P

ES-900P Ride-On Mopping Scooter delivers reliable and high-coverage floor cleaning with a 900 mm mopping width and up to 60 km operating range. Equipped with a 36/48V DC power system and 500W motor, it ensures stable performance, excellent maneuverability, and efficient operation across large industrial and commercial areas.

Special Sweepers

Municipal Sweeper (Diesel) ETMS6000

ETMS6000 Municipal Sweeper (Diesel) is a high-capacity road cleaning machine designed for demanding municipal operations. With sweeping width up to 2850 mm and productivity up to 30,000 m²/hr, it features a 6 m³ hopper, 1100L water tank, hydraulic brush system, and powerful diesel engine for continuous heavy-duty performance.

Municipal Sweeper (Electric) EVS6000

EVS6000 Municipal Sweeper (Electric) delivers eco-friendly road cleaning with a 2000 mm sweeping width and zero emissions performance. Equipped with a 5 m³ hopper, 1100L water tank, dual side brushes, and 5.5 kW suction system, it ensures efficient, low-noise operation for urban streets and municipal environments.

Ride-On Scrubber Cum Sweeper ERS-350

ERS-350 Ride-On Scrubber Cum Sweeper delivers dual-function cleaning with a 1450 mm cleaning width and productivity up to 13,050 m²/hr. Equipped with 280L solution and 330L recovery tanks, powerful 72V motors, and lead-acid or lithium battery options, it ensures efficient sweeping and scrubbing for large industrial facilities.

E Super Sweeper E-SUPER-600

E-SUPER 600 Road Sweeper delivers powerful municipal cleaning with up to 2000 mm sweeping width and 21,000 m²/hr productivity. Featuring a 640L hopper, 12 m² filter system, and water-cooled diesel engine (battery optional), it ensures efficient debris collection for roads, industrial zones, and large infrastructure areas.
